

# About solutions by stc

**We are the leading ICT services provider and digital transformation enabler at the forefront of digitalization in the Kingdom and the region, supporting Vision 2030's aspirations. In a rapidly evolving digital environment, our services play a pivotal role in empowering both the public and private sectors to embrace and thrive in the new digital era.**

Showcasing our commitment as a trusted partner, we deliver value through technology to our clients by addressing their business challenges in a holistic and comprehensive "one stop shop" approach across the entire IT value chain.

solutions by stc has a wide and diversified portfolio of offerings covering the end-to-end ICT value chain encompassing core ICT services, IT managed and operational services, and digital services. The Company's unparalleled capabilities that span the entire ICT value chain are perfectly positioned to be the partner of choice for the B2B sector.

As a frontrunner in the ICT industry within the Kingdom, solutions by stc has embarked on an ambitious growth strategy intended to reinforce its position as the leading ICT services provider in the Kingdom and to diversify the portfolio of offerings. The Company's growth strategy focuses on strengthening core

capabilities in competitive growth areas, enriching next-gen offerings, expanding geographic reach, and accelerating efforts to improve efficiencies across the board with a dedicated focus on innovation and sustainability. As a major player in the ICT ecosystem and value chain, solutions by stc's successes contribute to the Kingdom's development and the success of our stakeholders.

Following a successful IPO in 2021, solutions by stc stock achieved a phenomenal performance even during a market downturn, doubling the value of its initial IPO price by the end of 2022. As a result, solutions by stc achieved a market capitalization of more than SAR 41 billion (more than USD 11 billion) by the end of 2023. Following a strategy for stable growth with strong profitability, the Company is well poised to continue creating value for its investors, partners, and other stakeholders.

## Vision

To create a digital ecosystem enabling our customers to achieve sustainable growth, regionally and globally.

## Mission

To provide technology solutions to businesses addressing their needs and challenges to succeed in evolving market conditions.

## Values

### Dynamism

We're driven to inform and spark imagination. Our point of view is not literal. It brings a new vision and inspires others to see the world in a more ingenious way. We arouse enthusiasm around the promise of better things to come.

### Devotion

Our style is human, not because it focuses on people, but because it is warm, simple, and clean and it eliminates superfluous details to achieve quality and clarity.

### Drive

Focused on what's important, displaying the reason why, how, or where things happen. We convey the idea of movement, with agility and progression.

## What We Do

### Core ICT services

System Integration (SI) services cover a variety of organizational needs across the value chain, enabled by our strong local and global partnership ecosystem. These services include advisory, design, implementation and integration of networks, infrastructure, and applications, which are offered through custom engagement models to our customers.

solutions by stc’s communication and internet services address high-end connectivity needs of organizations within cities and remote locations by providing dedicated, secure, and high-quality business internet and satellite services through the wholesale purchase of communication capacity from telecommunication providers.

### IT managed and operational services

Managed services include end-to-end management of business networks and systems with the capability to deliver customized managed services projects to serve the individual needs of customers, which help them grow and improve their businesses.

We create value by increasing efficiency, providing better services, improving operations, and monitoring and resolving problems by managing the components of our customers’ technical infrastructure such as networks, servers, storage, devices, and applications.

Business outsourcing services covers services in the domains of HR, customer care, and other shared services enabled by technology and automation to optimize outcomes. The Company partners with customers by utilizing a variety of business models to deliver services. This business vertical has strong momentum given the focused efforts by the Saudi Government towards privatization in line with the aspirations of Saudi Vision 2030.

### Digital Solutions

Cloud services includes the full spectrum of data center and cloud services as well as multi cloud professional and managed services for all the hyperscalers helping clients to optimally manage their cloud investments.

Digital services consist of digital transformation services; providing digital solutions to connect, monitor, and analyze machine/device data for informed and effective decisions, and redesigning how businesses are conducted to enhance customer experience – these include but are not limited to application services.

Cyber security integration provides security services covering all stages of the IT value chain, including planning, design, implementation, and project management of technical solutions that cater to the specific security needs of enterprises.
